Title: Embarking on a great experiment.

Authors: Coyne, Andrew

Source: Maclean's

Date: 2010

Publication Type: Periodical

Abstract: The article presents the author's opinion on how the world leaders' agreement on an economic plan wouldn't have happened in 1980. He discusses the language of the Group of 20 (G20) document on member states' existing stimulus plans, global warming, and maternal and child health initiative. The author discusses whether or not the alignment of the G20 consensus with the policies of Canada's prime minister Stephen Harper's government is a result of Harper's leadership.
